

**(1) EXEMPTIONS:**

- Land disturbance activities on agricultural land for production of plants and animal useful to man (crops, dairy, poultry, livestock, etc.), except if the land disturbance includes the construction of a major building which requires the issuance of a building permit.
- Land disturbing activities undertaken on forest land for the production and harvesting of timber and timber products.
- Land disturbance activities that are less than 1-acre of disturbance and are not part of a subdivision or part of a commercial or industrial development.
- Emergency land management practices posing an immediate danger to life or property, or substantial flood or fire hazards.
- At the discretion of the BSB Director.

**(3) BPSOU Map**

**(4) Regulated area:** A regulated area is located within the Butte urban district and is not within 1000-ft of surface water. Redevelopment qualifies as a regulated area if the following are significant: changes to the site grading which could increase storm water runoff, increases in impervious area, and/or soil disturbances have the potential to discharge from the site perimeter.
